

**Michael Earl**  
**STUDENT OF THE MONTH**  
**Mountain View High**  
**School**  
**September 2022**

Senior

---

Mountain View High School is proud to recognize Michael Earl as our September 2022 Student of the Month.

Michael is a current senior at MVHS who cares about technology and lending a helping hand where he can on campus. This summer, he was a student worker for the district's IT department. Within this job, he assisted with preparing classrooms for incoming teachers, doing asset management of district devices, and counting textbooks for MVHS students. Michael also cares about studying and improving educational practices and teaching methods, which has led him into his role as a teacher's assistant to one of our MVHS math teachers.

Michael's favorite class ever was AP European History. This year, the classes he is enjoying the most are AP Spanish Literature and physics. He is most passionate about math and languages, especially Spanish, Portuguese, and Italian.

Michael's teachers describe him as a student with a passion for education in and out of the classroom. He is a leader, an active classroom participation, and an effective collaborator and peer tutor. He is friendly to all as well as mature and resourceful. His teachers highlight Michael's hunger for lifelong learning and praise him as a tremendous asset to MVHS as a student volunteer.

Outside of school, Michael spends his time on musical endeavors like the piano and organ. He also enjoys learning about math, education, and pedagogy. One of his hobbies is reading the mandated reports for MVLA which include SPSA (the Single Plan for Student Achievement), LCAP (the Local Control and Accountability Plan), and portions of the district budget.

Looking forward, Michael hopes to major in physics in college and work in a technology related company at first, then teach high school math, preferably AP Calculus BC, and finally become an assistant principal.

Congratulations Michael!
