

Cameron Draeger

STUDENT OF THE MONTH

Los Altos High School

October 2024

Los Altos High School is proud to honor Cameron Draeger as our October Student of the Month. It is a privilege to recognize all of her accomplishments throughout her time at Los Altos High School.

This year, Cameron is the president of the National Honors society at Los Altos High School. Through this position, she plans and facilitates meetings with over a hundred students every month. She's formed a strong community within NHS and is able to get involved in her community through group service volunteering.

Cameron is one of our loved seniors on our Girls Varsity Water Polo and Swim team. The team's community means a lot to her and she loves the intensity of the sport almost as much as her teammates!

As the 2-year Co-president of the Psych & Wellness Club, Cameron advocates for mental health awareness and resources at our school, as well as teaching strategies to enhance others well-being and lives through positive psychology. One of the most important aspects of life to her is helping others, which she practices through this club.

She's described by her teachers as always enthusiastic to learn and grow. Tory Johnson, her AP Biology teacher says that Cameron is one the most positive student's she's ever met. After having her in AP bio, Cameron is now in her class for advanced science investigations. In addition to having a great brain for science, she is someone who always makes sure people feel included - whether doing a lab, studying for an exam, preparing for a presentation - you name it! She is always there with a smile and a great attitude, giving a boost of confidence and energy to everyone around her. She's an accomplished student and athlete - all around embodying what it means to be a Los Altos student.

Science is important to Cameron, specifically immunotherapy. She's spent time researching this topic in a biotechnology lab and this year in ASI she will be researching more about science.

After senior year, Cameron wants to attend a four-year undergraduate university and then get her master's degree. She hopes to attend a college in California for our beautiful weather and to visit her little sister.

Congratulating Cameron Draeger, and on behalf of all of LAHS, thank you for making the MVLA district proud of what you bring to every classroom and community you are a part of. We can't wait to see all of the amazing accomplishments coming your way in the future!
